## BACKGROUND

---

With over 30 years of supply chain and procurement operations leadership, Sean has broad experiences including Americas, EMEA, and APAC regional supply chain operations, global network strategy development, spare parts planning and logistics, product segmentation and service level driven inventory management, sales & operations planning (S&OP), procurement optimization, global category management, strategic sourcing and negotiations, 3rd party risk management, supplier relationship management, procurement enabled innovation, M&A integration, and transformational change management.

As VP Global Strategic Sourcing & Procurement at Novavax, an innovative vaccines biotech company, Sean is leading the development and execution of their strategic sourcing and procurement strategy in support of their new Covid vaccine program.

Previously, Sean was Head of Procurement, Global R&D, Biosimilar, Facility Management for AstraZeneca, a \$23B biopharmaceutical company, and oversaw \$1.1B in global spend management that delivered \$70M+ per year savings over multiple years (6.5%).

As the Vice President of Global Supply Chain Operations at QIAGEN, a \$1.5B biotech company, Sean engaged regional and corporate executive leadership teams to develop and execute an end to end global supply chain strategy across the Americas, Europe and Asia.
